

Attract Top Talent, Improve Retention, and Gain The Competitive Edge as a Manufacturing Employer Of Choice!

What's an Employer of Choice?

In today's competitive labor market employers are struggling to fill open positions and retain existing employees.

Being an employer of choice takes more than just offering a great benefits package, companies need to adopt a set of initiatives and practices that can be put into practice to become a desirable workplace for all employees.

The Employer of Choice program is a "no cost" 40 question actionable survey tool that captures workforce analytics and provides benchmarks to educate small-to medium sized organizations on the essential components associated with being a best place to work.

All participating manufacturers will receive a valuable benchmarking analytics report based on the survey results. Top ranking companies will be recognized as a 2023 Florida Manufacturing Employer of Choice at the statewide MakeMore Manufacturing Summit in October, being held at the Dr. Phillips Center for the Performing Arts in Orlando.
